If the item is not found after a search, then it is out of stock or has been deleted. Email us at sales@zigzag.co.nz if you would like to know the availability of the item.

Available in 50g blocks
250g bricks

Dukit cures/hardens in a preheated household oven (**DO NOT USE A MICROWAVE**) at 125 deg C (260 deg F) for 10 to 20 minutes. High temperatures can scorch and discolour. Low temperatures do not cure properly but when baking thick items, to avoid cracking, they are best started at a low temperature and slowly brought up to the full curing temperature. Oven temperatures can vary it is advised that you bake a test piece first or use an oven thermometer.
