### Dyeing Wood & Flax

Using Rit Dye to stain unfinished wood and flax creates beautiful results.

The dyes can be mixed to create custom colours that coordinate or match other home décor accessories.

Rit is a water-based dye that can be applied like a stain. Unlike some heavy oil-based colour stains, it allows the natural wood grain to show through, adding depth and texture to the finished project.

And, since wood and flax absorb the dye, the colours won't chip or peel like paint.

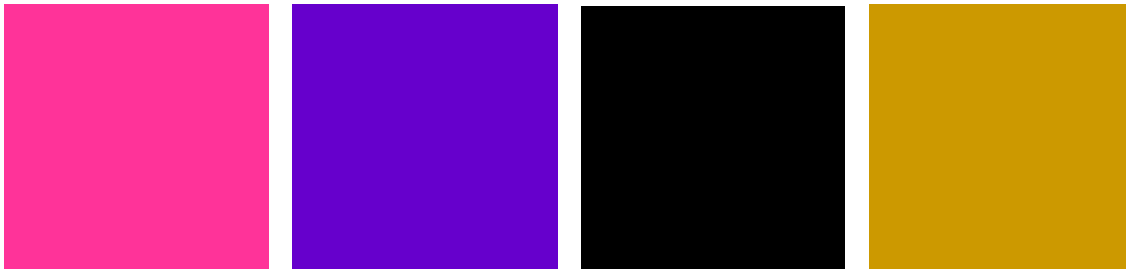

NM100656 – Rit dye Powder 31gms Lemon Yellow No 1

NM100670 - Rit dye Powder 31gms Scarlet No 5

NM100672 - Rit dye Powder 31gms Rose Pink No 7
