

Rubber Stamps

We love rubber stamps!! The thing is there are so many stamps and images available that we need to be selective about the rubber stamps that we stock. We are not a rubber stamps shop or supplier so we choose to stock stamps that are made by companies who either focus on designs for polymer clay and fabric artists or who work with us on designs that we can use.

Montarga Art Stamps

This design is a traditional Maori design that we ourselves use often. The team at Montarga cut our stamps especially deep for us so that we can use our images on polymer clay.
