You will also require:

- 1 ruler, 1 cocktail stick or large needle
- glue, mini screw eyes
- jump rings
- small pliers - for opening/closing
- bracelet chain with clasp
- baking tray

Step 1

Knead and roll a small piece of FIMO into a 1 cm diameter ball.

Roll into a cone and cut off the end. Roll a different colour FIMO 1 mm deep and cut a small circle using a pen top.

Decorate the edge using a cocktail stick and place it on top of your cone shape.

Add a tiny cherry and make a hole next to it with a needle.

Step 2

Roll a portion of FIMO 2 mm deep.

Lay some FIMO leaf metal over the top and roll over until the leaf metal cracks and separates.

Cut a strip 1 cm x 5 cm.

Carefully wrap the crackled strip around your FIMO cone shape and smooth underneath to neaten.

Step 3

Place your cupcakes onto a baking tray.

Oven-bake for 30 minutes at 110°C/230°F.

Allow to cool then varnish the cherry.

Squirt a tiny blob of glue into the holes on the top and insert a mini screw eye.

Attach a jump ring through each screw eye and fix your cakes onto a bracelet chain.
